About TWAICE

TWAICE is the data analytics platform for growing battery energy storage operators. We help companies run safer, more reliable, and more profitable BESS fleets with easy-to-use software that works across any vendor, technology, or market. Our cloud platform transforms raw battery data into real-time insights that cut downtime, prevent failures, and boost lifetime returns. Founded in 2018, TWAICE supports leading storage operators worldwide with software that accelerates the shift to a more sustainable, resilient energy grid. Learn more:

Founder Team

TWAICE was founded by Dr Stephan Rohr and Dr Michael Baumann in June 2018 and is now the leading battery analytics provider with over 120 employees.

Dr Michael Baumann researched batteries as a research associate at the Technical University of Munich (TUM) from 2014 to 2018. He previously graduated Dipl.-Ing. in mechatronics and IT at TUM. He gathered relevant experience in battery technology as well as hardware and software development in projects for various industry partners and research institutions such as TUM Create Singapore, UC Berkeley, and Harvard University.

Dr Stephan Rohr researched batteries at the Institute of Automotive Technology at the Technical University of Munich (TUM) with Dr. Michael Baumann, but with a focus on economic utilization. In addition, he gained business experience while working for the management consultancy Strategy Engineers, as well as in private equity and other companies.

Facts and Figures

- **\$ 90 M** funding
- **100+** projects
- **30+** patents
- **2** offices in Munich (HQ) and Chicago
- **1** onsite Battery Research Center
